The world can be seen in several perspectives and angles. Every human being sees their surroundings from ground level. Imagine what it would be like to be a bird and fly over the beautiful island of Sri Lanka while gazing downwards? A helicopter ride in Sri Lanka would bring to you a totally different, unique and interesting perspective. When you look from above, the beaches you would stroll on, the malls you would shop at, the wildlife experience, the visit to Temples and historical ruins, and the mountains and tea estates that you would enjoy driving by, are all incredibly different.
